Our Story

Life Story brings you innovative storage solutions to keep your home in order. All of our products are created by a talented In-House design team and thanks to the innovative technology of plastic injection molding, our collections introduce quality, color and stylish storage ideas to everyday life. Many of our designs have been patented and all of our products are manufactured under the strictest quality control and meet rigorous safety standards.

From day one we focused on smart organization solutions, helpful friendly service and a customer centric approach. To streamline our supply chain we built manufacturing and logistics facilities in Savannah Georgia USA, as well as in Israel close to key european regions. Our geographical proximity to so many centers around the world allows us to retail stores, supermarket chains, departments stores and discount stores.

Storage

40L Rope

A Combination of two materials that makes the product look pretty authentic and especially trendy. The 40 Liter Tub is used to store anything you need and adds a touch of design to your home.
